DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Berchem US 4,968,004.

Berchem discloses a disc slide (Fig. 2) having a casing 11, a valve seat in the casing and having two sealing discs 14a and 14b, a shut-off element 16 movably held between the sealing discs, an actuation element 18, wherein the valve seat and the slide plate are provided with a surface of silicon. All surfaces of the disc slide which come into contact with granules and dusts are silicon.

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Berchem '427 and Peters disclose using quartz in the valves. Oda, Parris, Mentesh, Enke disclose using silicon in valves.
